

Rois Khoiron

Senior Mobile Engineer · Product-Minded Developer · AI Integration Enthusiast

082334626354 · rois.khoiron@gmail.com · linkedin.com/in/rois-khoiron · github.com/roiskhoiron · Yogyakarta, Indonesia

PROFILE

Mobile Engineer with 6+ years of experience building products — not just apps. Specialist in Flutter, Kotlin (Jetpack Compose), and SwiftUI; recognized for designing scalable systems using Clean Architecture principles and data-driven decision making. Working at the intersection of engineering, product thinking, and AI integration — turning ideas into intelligent, high-impact mobile experiences.

Core strengths: Mobile Engineering · Product Thinking · Clean Architecture · AI Integration · System Design · Cross-Platform Development · Performance Optimization · Data-Driven Decision Making

WORK EXPERIENCE

Mobile Developer

Feb 2026 – Present

PT. Digital Sekuriti Indonesia · Full-Time · On-site · Yogyakarta

- Leading technical execution on active cybersecurity mobile products (AI Care, Callink) — ensuring delivery quality and architectural alignment with evolving product requirements.

Sub-Lead Mobile Developer

Jan 2024 – Feb 2026

PT. Digital Sekuriti Indonesia · Full-Time · 2 yrs 2 mos

- Bridged product team requirements with engineering execution — translating business specifications into clear, actionable technical tasks for the mobile team.
- Led architecture and system design decisions for 2 active products (AI Care, Callink) serving enterprise clients.
- Reduced average sprint carryover from ~40% to ~10% within 2 quarters** through restructured task breakdown and more structured weekly PM-engineer syncs.
- Mentored junior engineers; conducted regular code reviews to maintain code quality and share technical knowledge.

Lead Mobile Developer

Feb 2022 – Jan 2024

PT. Digital Sekuriti Indonesia · Full-Time · 3 yrs 10 mos · Jakarta & Yogyakarta

- Built and grew the mobile developer team from scratch — handling recruitment, onboarding, and KPI evaluation.
- Delivered 2 production applications** (AI Care & Callink) from zero to launch, now serving active enterprise deployments.
- Established Clean Architecture + DDD standards across Flutter and native projects; introduced CI/CD pipelines and automated testing.
- Defined the tech stack roadmap: Flutter (primary), Jetpack Compose, SwiftUI, WebSocket, Firebase, Matrix protocol.
- Coordinated with product, design, and backend teams to ensure all mobile builds aligned with business objectives.

Tutor — Flutter & Mobile Developer

Mar 2026 – Apr 2026

PT. Karya Kaya Bahagia (Harisenin.com) · Freelance · Remote

- Delivered structured coaching sessions to Bootcamp Batch 1 participants covering Flutter (Dart), Android (Kotlin/Jetpack Compose), and iOS (Swift/SwiftUI).
- Facilitated live technical sessions: mobile architecture, clean code, state management, Git workflow, and publishing to Google Play / App Store.

Mentoring Assistant — Flutter & Mobile Developer

Jan 2026 — Apr 2026

PT. Karya Kaya Bahagia (Harisenin.com) · *Freelance · Remote*

- **Guided 1 batch (Batch 1) of bootcamp participants** over 4 months — monitoring individual learning progress and providing targeted technical support.
- Assisted the lead mentor with assignment reviews, debugging sessions, and delivery of learning materials.

Coding Tutor

Jul 2024 — Jul 2025

PT Bangun Inovasi Teknologi (BIT House) — *Edukoding · Freelance · Remote · Bali*

- Taught programming to children (ages 8–14) through game- and project-based methods: HTML, CSS, basic JavaScript, and computational thinking.
- **Designed and delivered 12+ months of curriculum** with flexible online scheduling and consistent student progress tracking.

JCH Volunteer

Oct 2025 — Jan 2026

PT Kode Kolektif Indonesia (Jogja Coding House) · *Seasonal · Hybrid · Yogyakarta*

- Contributed to community-based developer education initiatives, supporting coding literacy programs for local students in Yogyakarta.
- Developed a strategy for synergizing the community and industry ecosystem in Yogyakarta to strengthen the local tech talent network.
- Coordinated volunteer activities and event operations with high attention to detail.

Senior Mobile Developer (Native Android & Flutter)

Apr 2021 — Jan 2022

ENB Mobile Care (Powered by Erajaya) · *Contract · 10 mos · Jakarta*

- **Delivered 5+ trade-in applications** deployed across Erafone, iBox, Samsung GLP, Blibli, and internal operational tools.
- Integrated third-party APIs: IMEI validation, device price estimation, Midtrans payment gateway, Google Maps, and logistics management.
- Refactored legacy codebase to Clean Architecture; applied modular patterns that significantly reduced bug frequency.

Intern Mobile Developer (Native Android)

Feb 2020 — Jul 2020

PT. Ruang Halal Indonesia · *Internship · 6 mos · Yogyakarta*

- Migrated the ruanghalal.com web platform to a native Android app — handling full feature translation from web to mobile.
- Implemented halal product marketplace features: product search, vendor listings, and Firebase integration.

Junior Mobile Developer (Native Android)

Sep 2020 — Apr 2021

PT Happy Life Indonesia · *Contract · 8 mos · Jakarta*

- Built and published 4 Android apps: IamEnglish (courses & games), EasySurvey, HappyWedding for Partners, HappyExpress (logistics).
- Designed XML-based UI with Material Design; integrated RESTful APIs for content, logistics, and insurance premium calculation.
- Fully participated in the Agile/Scrum cycle: sprint planning, QA, device testing, and Play Store releases.

FEATURED PROJECTS

ChefGenie

Mar 2026 — Present

AI-Kitchen Companion App — personal project integrating LLM API with Flutter for an intelligent cooking assistant.

- AI Care — Digital healthcare service app | PT. Digital Sekuriti Indonesia (Mar 2022–Present)
- Callink — Real-time enterprise team messaging platform | PT. Digital Sekuriti Indonesia (Feb 2022–Present)
- Flutter App with DDD + Testing Orientation — open-source architecture reference | github.com/roiskhoiron/t_ddd_flutter
- Flutter Analytics Collector — Firebase analytics data pipeline | github.com/roiskhoiron/mobile_analythics_projectile
- QA Snap SDK — Android SDK for screen recording & ADB log capture | github.com/Coding-Skuy/qa-snap-sdk
- Bike Sharing Data Analysis — Business analysis of California bike rental data using Python (Sep–Oct 2024)
- Yogyakarta Housing Price — ML clustering & classification analysis on Yogyakarta housing dataset (Nov 2024)
- SWUSHD Kitchens — Freelance SaaS cloud kitchen project (Apr–May 2023) | Stack: Laravel, Firebase Firestore, Stripe · Backend-frontend optimization & API stability

EDUCATION

B.Sc. Informatics (S.Kom) — Universitas Teknologi Yogyakarta

Aug 2016 – Jul 2023

GPA: 3.64 / 4.00

Computer Networking — SMKN 2 Banjar

May 2013 – Jun 2016

Non-Formal: IDCamp 2019 (Indosat Ooredoo) · BEKRAF Developer Day 2019 – Solo · Associate Data Scientist at AI Center IPB (Jul 2023)

CERTIFICATIONS & TRAINING

Recent & Featured

- **Data Processing Fundamentals** — Dicoding Indonesia (May 2026 · valid until May 2029)
- **Introduction to Cybersecurity** — Cisco (Apr 2026)
- **Spec-Driven Development with Kiro (GitHub Spec-Kit)** — Dicoding Indonesia (Apr 2026 · valid until Apr 2029)
- **Project Management Fundamentals** — Dicoding Indonesia (Dec 2025 · valid until Dec 2028)
- **Machine Learning for Beginners** — Dicoding Indonesia (Nov 2024 · valid until Nov 2027)
- **Data Analysis with Python + AI Fundamentals** — Dicoding Indonesia (Oct 2024 · valid until Oct 2027)
- **Data Science Fundamentals + Python & R Fundamentals** — DQLab (Aug 2024 · valid until Aug 2027)
- **Introduction to Product Management** — MySkill (Jul 2024 · valid until Jul 2027)
- **Associate Data Scientist — AI Center IPB** — Institut Pertanian Bogor (IPB) (Jul 2023 · valid until Sep 2028)
- **Android Developer Expert (MADE)** — BAREKRAF x Dicoding Academy (Mar 2020)
- *Additional training: DQLab — Data Science, Python, R (Aug 2024) · MySkill — Product Management (Jul 2024) · Dicoding — Python, SQL, Data Science (Sep 2023) · Dicoding — AWS Cloud Practitioner (Apr 2021) · BNSP — BPPTIK Network Engineer (Aug 2017) · LinkedIn Skill Assessment: Android, Kotlin*

AWARDS & HONORS

Assistant & Mentoring Program Recognition

May 2026

Issued by Harisenin.com — Recognition for completing 4 months as Batch 1 Mentoring Assistant. Acknowledged for knowledge-sharing contributions, adaptation to each participant's learning style, and meaningful impact on the bootcamp community.

S.Kom / Bachelor of Informatics

Jul 2023

Issued by the Ministry of Education and Culture (Kemendikbudristek) — Official recognition of B.Sc. completion in Informatics, Universitas Teknologi Yogyakarta.

SKILLS

Mobile	Flutter (Dart) · Android Kotlin/Jetpack Compose · iOS Swift/SwiftUI · Firebase · REST API · WebSocket · GetX · BLoC
Architecture	Clean Architecture ·DDD · MVVM · MVC · VIPER · TDD · Modular Design
AI & Data	AI Integration · Machine Learning · Data Analysis (Python, R) · SQL · ETL · Data Visualization · LLM API
Backend & Cloud	Node.js · PHP/Laravel · MySQL · Firebase Firestore · Docker · Stripe · Sonarqube · AWS Cloud
Tools	Git · GitHub · GitLab · CI/CD · Android Studio · Xcode · Figma · Jira · Postman · WebRTC · Socket.io
Leadership	Team Building · Product Thinking · System Design · Technical Recruitment · Project Management · Agile/Scrum
Teaching	Bootcamp Mentoring · Curriculum Design · Code Review · Pair Programming · Teaching Children
